CAVITRON STYLE INSERTS AT A FRACTION OF THE COST

Bonart IF-50 Universal Insert REF: ART(25OR30K)INS01

ONLY
£40.00 + vat

The IF-50 series is our universal sized tip with a plastic grip. This tip is best for general scaling procedures. Compatible with most major brand magnet scalers.

CE and ISO certified 510K registered

Bonart IF-100 Slim Series Insert REF: ART(25OR30K)INS03

ONLY
£40.00 + vat

The IF-100 series is a slim, internal flow, plastic grip insert. The slim tip is good for perio scaling of calculus on sensitive areas of the mouth. Compatible with most major brand magnetostrictive scalers.

CE and ISO certified 510K registered

Bonart IF-5 Flat (Beavertail) Insert REF: ART(25OR30)INS02

ONLY
£40.00 + vat

The IF-5 series is a beavertail, spatula-shaped insert. This tip is best for removing hidden calculus. Compatible with most major brand magnetostrictive scalers.

CE and ISO certified 510K registered

Bonart Universal Metal Series Insert REF: ART(25OR30)INS004

ONLY
£40.00 + vat

The P-100 series is a slim, external flow, insert with a metal grip. The slim tip is best for perio scaling of calculus on sensitive areas of the mouth. Water flows from an external tube above the tip. Straight (P-100), left (P-100L) and right-angled (P-100R) models available. Compatible with most major brand magnetostrictive scalers.

CE and ISO certified 510K registered

EACH INSERT IS AVAILABLE IN 25K OR 35K

Ti-MAX Z SERIES TURBINES

Experience the outstanding power of NSK's new premium Ti-Max Z air turbine and remain at the cutting edge of dentistry

- 94-degree angled head enables easy access to the oral region
- Lightweight titanium body**
- Scratchproof DURAGRIP coating
- 2 head sizes: standard and miniature
- 4 Hole spray
- Compatible with all major manufacturers' couplings

RRP **£975**

Buy 3 Z SERIES TURBINES and get an extra 1 FREE

Available to fit NSK®, KaVo®, Sirona®, W&H® and Bien Air®

ENDO-MATE TC2

Endo-Mate TC2 Y1001027
RRP **£1,050.00**

- Large LCD screen
- Lightweight & cordless
- 5 programs for different file systems
- Supports most major Ni-Ti file brands
- Torque control facility ranging from 0.1 to 4.0 Ncm depending on head gear ratio
- Auto reverse and alarm function sounds an audible alert when preset torque level has been reached

ENDO-MATE DT

Endo-Mate DT Y141121
RRP **£1,291.65**

- Large LCD display
- Store up to 9 speed and torque settings
- Use with Ni-Ti files from most major suppliers
- Torque control from 0.1 to 6.5 Ncm depending on head gear ratio
- Auto reverse on, auto stop, auto reverse off
- Lightweight, user-friendly handpiece with low noise and vibration levels

iPEX II

iPEX II Y1002208
RRP **£730.80**

NSK's SmartLogic controller combines two advanced technologies to accurately analyse signals. iPEX SmartLogic technology removes virtually all signal interference from the root canal itself to precisely detect the location of the apex.

Prophy-Mate NEO Air Polisher

- Compact and lightweight
- Includes 60° and 80° tips
- 360° rotation
- Packed in a handy case
- Includes sachets of FLASH pearl® that quickly removes stains and plaque
- dismantle for autoclaving

Perio-Mate Biofilm Eraser

- Avoids injury to delicate periodontal pockets
- Ultra-fine water spray and Perio-Mate powder eradicate biofilm in just 20 seconds
- Smooth 360° rotation
- Flexible plastic nozzle tip for better access to difficult to reach areas

Main Attributes of the **MONT BLANC®** range

- COAT® Surface Treatment
optimised surface durability and enhanced comfort in-hand
- LED Technology
Daylight quality lighting and more of it
- Optimum ergonomics
Profiled design for greater comfort and perfect angulation for improved access
- Easy Maintenance
Dismantle easily and quickly for effective deep cleaning and sterilisation
- Reliability and powerful
no vibration feedback even under stress with greater longevity
- Thermo-disinfectable and sterilisable in autoclave at 135°

MONT BLANC® SURGERY RANGE: CONTRA-ANGLES AND HANDPIECES

The MONT BLANC surgery range of handpieces is designed especially for surgical applications:

Effective and precise external irrigation: spray can be adjusted in accordance with the length of the drill

No air is projected from the instrument: thereby avoiding the risk of necrosis, bacterial transmission and subcutaneous emphysema.

Easy and quick to dismantle without tooling

MIDMARK NEWMED

- OUTSTANDING BUILD QUALITY
- HIGHLY RELIABLE
- LOWER MAINTENANCE COSTS

PRICE FROM
£1750
PLUS VAT

Contact us to discuss
your needs with
one of our
Representatives

The Midmark Newmed range of Class B, S and N sterilisers, from 6 to 60 litres, are the most reliable on the market. Standard features include automatic fail safe door closing, reversible tray holder to accommodate both trays and cassettes and an optional data logger. An integral printer records all key parameters of the sterilisation cycle in line with HTM01-05 requirements. Pre-programmed cycles and fast cycle times ensure rapid throughput and help avoid bottlenecks in your instrument workflow.

Look out for the MIDMARK marque

Midmark is one of world's largest manufacturers of Dental, Medical and Veterinary equipment and has a reputation built on design, craftsmanship and quality. Based in Ohio, USA, they operate worldwide with offices in the Europe and the Far East. With national manufacturer-trained engineering support the excellence of their complete product offering is undeniable and they will make a difference.

PROPHY LINE

MK-dent[®]
GERMANY

Light-weighted, efficient, universal

Our novelty, the Propphy Line, is an air-driven dental polishing device that is especially designed for your needs. It is smooth and easy to handle. The whole instrument is very compact and light-weighted, that makes the Propphy Line easy to use. The outer handle is rotated 360° and the unique RotaGrip© allows you due to an almost zero resistance rotation, a very simple and fatigue-proof operation. The Propphy line is compatible with most popular quick-coupling systems, and is therefore universally applicable. Care and maintenance are simple. The Star Powder is very efficient in the removal of coatings and this comes in mint, lemon and strawberry flavours.

Micro-Series - Welcome to a new dimension

Perfect balance and handling, exceptional power and control, uniquely versatile. The Micro-Series micromotors, contra-angles and handpieces redefine the standards for dental instruments. The Bien Air Micro-Series brings together new LED micromotors and the new generation of ultra-short contra-angles and handpieces. The result is a combination which is up to 30% shorter and 23% lighter than previous generation models, while still offering the power and control of the best electric micromotors on the market.

ELEVANCE®

- OUTSTANDING BUILD QUALITY
- LOWER MAINTENANCE COSTS
- DESIGNED TO IMPRESS

Contact us for
further information

Elevance™ is attractive and built to last with **minimal maintenance** and a **low cost of ownership**. Years of experience in the dental industry mean that everything has been thought through, from the **direction of stitching** on the upholstery to the ease with which patients get on and off the chair. A **powerful hydraulic system** and **comprehensive cast aluminum backrest** will comfortably support patients weighing **up to 32 stone**. And while it is **very sturdy**, the surprisingly **thin backrest** allows **optimal patient access** and an **ergonomically correct working posture**. For longer procedures or even nervous patients there's also a **back massage function** that is so comforting they might not want to get off!

Solara® QT High-Speed Handpiece

- More than 20% lighter than any handpiece on the market means it delivers less wrist and finger stress and fatigue.
- Lightweight design requires less gripping strength
- Smooth gripping area avoids creating any pressure points
- Mini head designs means improved line of sight
- Neck designed specifically for smaller fingers
- LubeFree ceramic bearings are more than 50% lighter than the lubricated stainless steel bearings used by some competitors
- Engineered for more watts at peak power when you need it most

(RRP £775)
OUR PRICE **£697.50**

430 SWL Classic Handpiece

Convert your practice to the reliable performance of the 430 handpiece without replacing your Multiflex® swivels.

Endodontics - Used for EMS | Woodpecker | DTE | Satalec

E1 (120° Angle Holder) for: NITI K-Files, usually used for premolar root canal cleaning, sterilising and taking out the stem in root canal.

E2 (95° Angle Holder) for: NITI K-Files, usually used for distomolar root canal cleaning, sterilising and taking out the stem in root canal.

E3 After root canal cleaning, using the mechanism and heat energy of ultrasonic vibration to intenerate the filling lateral condensation, to make sure the top of the scaler tip touch the lateral condensation.

E3D Used to remove the calcification and bad filling material of pulp cavity, overhang pulp chamber.

P4D Can replace the traditional G reamer, used for preparing good endo jaws.

E4 To remove obstructions and broken instruments in the mid-upper thirds of large and straight canals.

E4D Diamond-coated, for retreatments of extremely hard materials.

E5 To remove calculus and removing temporary cements and broken instruments in the coronal third.

E5D Diamond-coated, with enhanced cutting and abrasive power laterally. Specially useful for removing very hard materials on the canal wall

E8 Burs holder, used to expand root canal and grind teeth.

E9 Burs holder, used to expand root canal and grind teeth.

E10 Used for root canal softly treatment.

E10D Used for the root canal retrogression, efficient root apical polishing (diamond coated).

E11 Used for root canal softly treatment.

E11D Used for the root canal retrogression, efficient root apical polishing (diamond coated).

MASTER SERIES

KaVo. Dental Excellence.

KaVo's Master Series premium handpieces operate at a very low frequency. In fact they are the quietest highspeed handpieces available. An extremely well balanced turbine reduces acoustic pressure and high frequency peaks to protect your hearing and helps create a relaxed environment for all. The unique ball bearing technology guarantees quiet and virtually vibration-free operation.

SMART SERIES

KaVo. Dental Excellence.

The instruments of KaVo Smart Series provide excellent basic features with KaVo quality at entry level prices.

The high torque of the turbines of up to 16 watts and KaVo safety standards, such as up to 30N chuck retention force, ensure swift and safer working.

The fine tuning of the instruments to each step of cavity preparation, as well as the high quality workmanship, are persuasive arguments in combination with the high quality that has made KaVo the worldwide market leader

NSK iCLAVE HP

iClave HP is a high performance class B autoclave designed for rapid and safe sterilisation of handpieces. Thanks to the exclusive "Adaptive Heat" heating system, iClave HP enables fast sterilisation without damaging the micro-mechanisms of the handpiece.

- Fast – Guarantees rapid sterilisation of 12–18 minute cycles, including drying
- High Performance - Can sterilise 12 wrapped / 18 unwrapped handpieces
- Gentle - Due to the special heating system, the iClave HP reduces the risks of thermal jumps and provides a more gentle sterilisation cycle without the risks of damaging the handpieces
- Validation - The sterilisation cycle is in compliance with the European Norm EN13060 and cycles can be easily validated
