WIDTH: 21CM - LENGTH: 29CM HEIGHT: 24.5CM - WEIGHT: 5KG AIR SUPPLY: DRY, OIL FREE, 4.5 TO 7 BARS WATER SUPPLY: 2-5 BARS.

PRESERVE HEALTHY TEETH

GBT minimizes the use of power and hand instrumentation. AIRFLOW[®] is minimally invasive on all types of dental tissues: dentine, cementum, enamel and gums. Minimal abrasion for maximum comfort: GBT enables the patient to enjoy natural teeth and implants for much longer.

MAINTAIN ORTHODONTIC APPLIANCES

Orthodontic appliances increase biofilm growth in areas not accessible by daily brushing and traditional prophylaxis. Biofilm creates wire friction, gingivitis and caries. AIRFLOW[®] with PLUS Powder removes biofilm with full access to critical areas. Safe and effective on teeth and brackets, it prevents caries and hyperplasia.

EMS AIRFLOW[®] ONE

AIRFLOW[®] ONE IS THE LATEST EMS INNOVATION FOR "GUIDED BIOFILM THERAPY" FOR CLINICIANS ALREADY EQUIPPED WITH A PIEZON[®] NO PAIN MODULE ON THEIR DENTAL UNIT. THE EQUIPMENT IS DESIGNED FOR INTENSIVE USE AND OFFERS IMPROVED ERGONOMICS, HIGH PRECISION, SIMPLE MAINTENANCE AND THE LATEST HYGIENE STANDARDS.
